

THE FUTURE OF INTELLIGENCE: AI & DATA MANAGEMENT

The agenda is made up of four significant technology areas. The Information Difference produces a Market Landscape each quarter and in line with the retrospective landscapes, an Information Lens Report will be produced on the convergence of the specific technology and AI.

The Landscape ranks vendors using weighted criteria. To reflect what matters most to your customers, such as technology depth, customer base, or geographic reach.

Landscape Reports

- Q1 Data Quality Landscape
- Q2 Master Data Management Landscape
- Q3 Data Governance Landscape
- Q4 Databases in an AI world (vector db) Landscape

Information Lens Reports

- Q1 Data quality and AI
- Q2 MDM and AI
- Q3 Data governance and AI
- Q4 Databases in an AI world
